CAREER OBJECTIVE

DevOps Engineer fresher with hands-on training in Linux, AWS, Docker, Jenkins, Git, CI/CD, and Infrastructure as Code. Strong understanding of cloud computing, automation, and deployment pipelines. Quick learner with excellent problem-solving skills, seeking an opportunity to start a career in DevOps and Cloud Engineering.

TECHNICAL SKILLS

Cloud Platforms

Amazon EC2, Amazon Cloudwatch, AWS Lambda, Amazon S3, Amazon VPC, IAM, Cloudfront, ELB, EBS

DevOps Tools

Git, Docker (Basics), CI/CD Concepts, Terraform, Kubernetes, Maven, Github, Grafana, Ansible

Programming

Python, Node.js (Basic), Shell Scripting

Concepts

Networking CP/IP, DNS, DHCP, Subnetting

PROJECTS

Ethans Tech

06/2026 – Present

Automated CI/CD Pipeline for a Web Application

Technologies Used: Jenkins, Git, Docker, AWS EC2, GitHub, Shell Scripting

Description: Designed and implemented a CI/CD pipeline to automate the build, test, Docker image creation, and deployment of a web application on an AWS EC2 instance using Jenkins.

Roles & Responsibilities:

- Configured Jenkins pipelines for automated build and deployment.
- Integrated GitHub with Jenkins using webhooks for automatic code triggers.
- Created Docker images and managed Docker containers.
- Deployed applications to AWS EC2 instances.
- Wrote Shell scripts to automate deployment and cleanup tasks.
- Monitored pipeline execution and resolved build failures.
- Maintained version control using Git and GitHub.

Ethans Tech

03/2026 – 06/2026

AWS Infrastructure Automation using Terraform

Technologies Used: AWS (EC2, VPC, S3, IAM, Security Groups), Terraform, Git

Description: Provisioned cloud infrastructure on AWS using Terraform to automate the deployment of networking, compute, and storage resources.

Roles & Responsibilities:

- Developed reusable Terraform modules for AWS resources.
- Created VPC, subnets, Internet Gateway, route tables, and security groups.
- Automated EC2 instance provisioning using Infrastructure as Code.
- Configured IAM users, roles, and policies following security best practices.
- Created S3 buckets for application storage and backups.
- Managed infrastructure changes through Git version control.
- Validated infrastructure using Terraform plan and apply.

INTERNSHIP EXPERIENCE

Python Full Stack Developer Intern

01/2025 – 08/2025

The Kiran Academy

- Developed dynamic web applications using Python and Django.

- Built responsive front-end interfaces with HTML, CSS, JavaScript, and Bootstrap.
- Created REST APIs and implemented CRUD operations.
- Managed databases using MySQL and wrote SQL queries.
- Used Git/GitHub for version control and collaborated in Agile development.
- Performed testing, debugging, and application deployment support.

EDUCATIONAL QUALIFICATION

B.E in Information Technology

Savitribai Phule Pune university

CGPA: 7.49

12/2021 – 05/2025
Nashik, Maharashtra

CERTIFICATIONS

- Advance Certification in Cloud & DevOps
- Python Full Stack
- Power BI Data Visualization
